About Us

Arrco Lighting is a family-owned and legacy-driven company founded in 1975 amidst the vibrant landscape of Dubai.

At the heart of our journey is a commitment to serving our customers through cutting-edge lighting, electrical, and control solutions, all underscored by a relentless focus on personalized support.

We specialize in delivering cost-effective lighting solutions that exceed the ordinary.

Spanning diverse market sectors including commercial, residential, community, hospitality, retail, education, and public spaces we seamlessly blend products, design innovation, and on-site/post-sales assistance to redefine the possibilities for your environment.

With a record of serving over 10,000 satisfied customers in the UAE and GCC, we have seamlessly etched our mark across private, government, and semi-government sectors.

Our commitment extends beyond borders as we proudly manufacture the bespoke Spanish brand SYV, harness the power of the French solar brand SOLUX, and integrate Lutron control solutions to tailor our offerings to your unique needs and challenges.

ISO 45001:2018

ISO 9001:2015

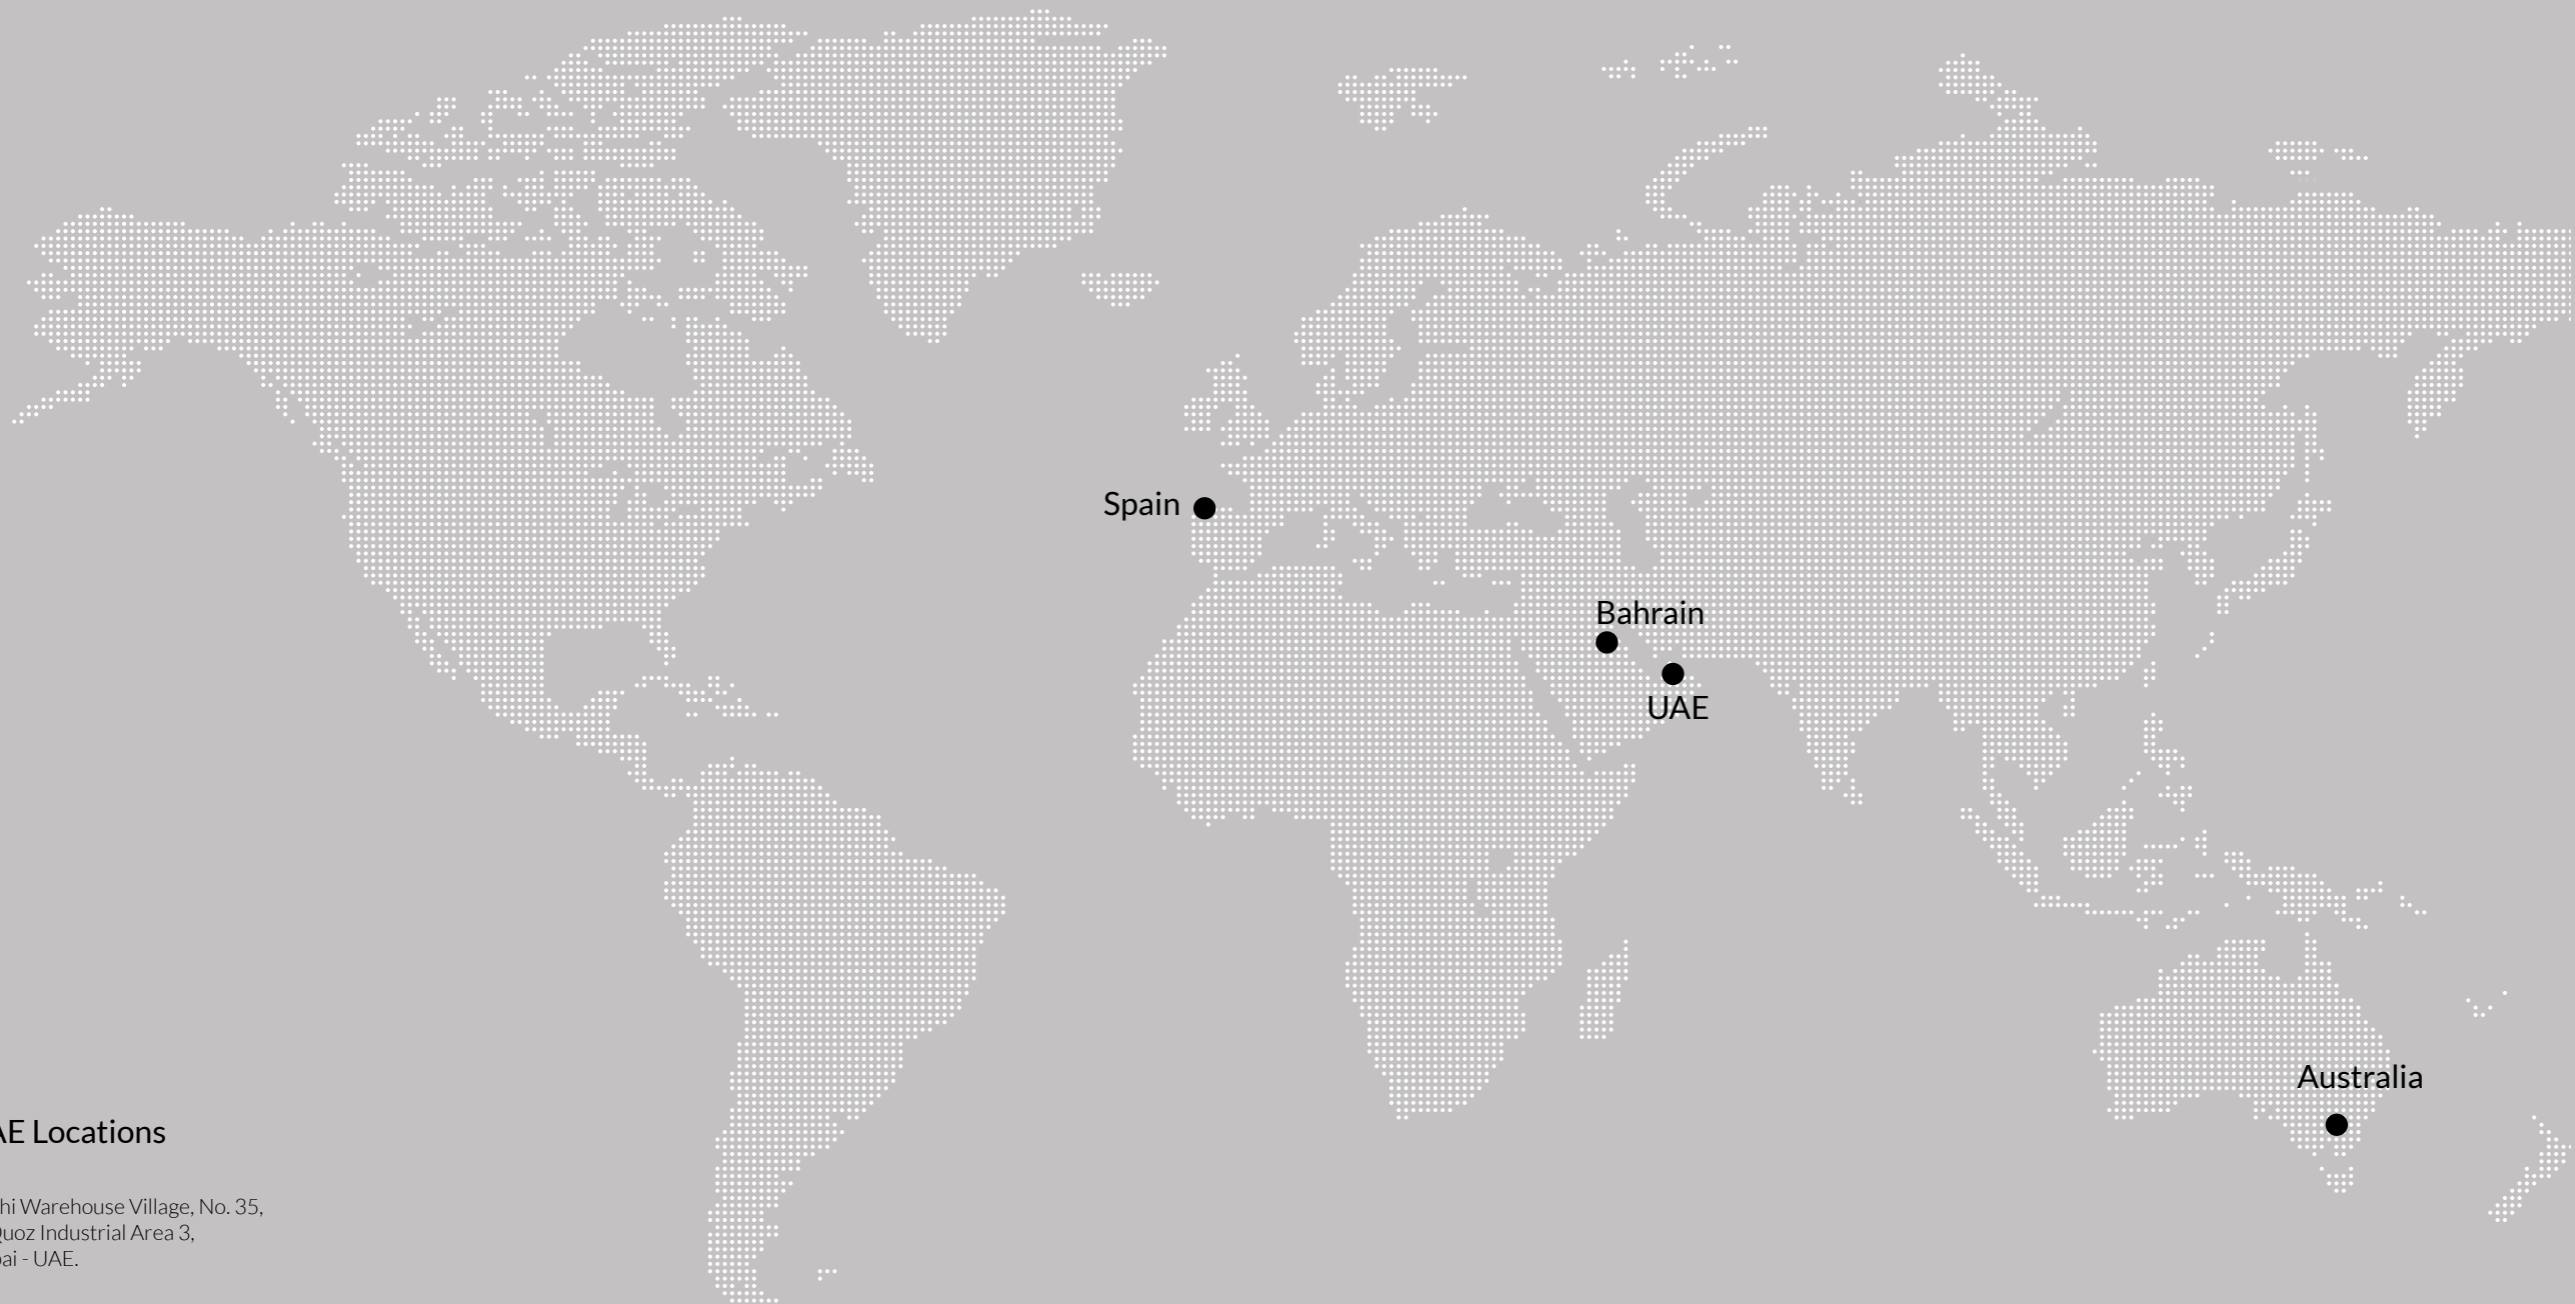

ISO 14001:2015

We are proud to be awarded the ISO certification, an internationally recognized standard that ensures that our products and services meet the needs of our clients through an effective quality management system.

From our strategically located offices and show-rooms in Dubai, Abu Dhabi, Bahrain, Spain-Madrid, Vietnam, to Melbourne-Australia, we bring the world of exceptional lighting and control solutions to you where innovation meets legacy, and your vision takes centre stage.

A Greener & Sustainable Future

Arrco Lighting and Solux have come together to create a new joint venture that will bring the latest solar lighting solutions to your door in UAE.

Our office will allow us to offer cutting-edge products, while providing top-notch customer service and expertise. We provide customers with a onestop- shop for all their lighting needs, from consultation, light and energy study, expert support to installation and maintenance.

Automatic Operation

Photo-sensor integrated day & night detection, automatic power ON & Off.

Charge Controllert

Our products are equipped with MPPT (Maximum Power Point Tracking) technology controller offering the best charging efficiency

Autonomy

Over 36 hours operation at full charge. Smart Management 7 rainy days back up.

Battery

We only opt for LIFEPO4 Lithium battery which guarantees an operating lifetime of more than 10 years.

Solar Panel

For high performance & reliability, we use monocrystalline photovoltaic panels.

Easy Installation

No Cabling. No Trenching
