Put the light strip into the aluminum groove in the direction of the arrow

Installed to complete

Cautions

Correct operation

During the installation process, the LED wall washer is taken out from the reel naturally and keep it as straight as possible.

The LED wall washer should be kept vertical or horizontal during the installation process.

When install at the corner place, Keep it horizontal bend and bending art must be maintained $\varnothing > 300\text{mm}$.

Wrong operation

Do not twist the LED wall washer during the installation process.

Do not fold the LED wall washer in half or bend it at a small angle during the installation.

When the LED wall washer meets the corner during the installation process, the LED wall washer must be kept facing up and the back down, and it cannot be bent at right angles.
